THIN WITH BIO-BASED CUT PROTECTION

Our thinnest and most dexterous cut protection glove for fine assembly work with small sharp objects. The cut protection is made with the world's first bio-based cut protection fiber - Dyneema®, an innovation that reduces dependence on fossil raw materials and decreases your company's carbon footprint. Good for the environment! The glove is extremely light, 18 gg, and has PU dipping for better grip. Cut resistance level B. Bulk packed.
