Oakwood House, City Road, Bradford BD8, 8JY
United Kingdom

Technical report and date: BTX 31356(1)/MD/05, 28.11.2005

Disclaimer: We want to state that the values for the permeation levels for all gloves are based on tests performed in laboratory under fixed conditions and cannot reflect all actual "in use"- circumstances. The maximum testing time is 480 minutes. As a rule, tests and certificates can only be regarded as general information and will not discharge the user from the duty to make sure before the use that the glove will correspond to the actual protection needs. When working with materials harmful to the skin before starting to work please always check the glove for any defects.
